

Navigator

World Marine is a Danish logistics and shipping company, established in Esbjerg to meet the increasing demand for cost effective, safe and effective solutions in the offshore wind industry.

We are specialized in offshore crew transfer, cargo transfer, offshore logistics and guard operations.

World Marine has its HQ in Esbjerg, Denmark, but we operate world-wide.

World Marine Offshore is looking for experienced Navigators for smaller ships.

World Marine operates 18 CTVs. We work primarily in foreign ports. We offer an exciting job with full support from the shipping company regarding operation and maintenance; however, as a navigator you must be able to work independently when the ships are offshore.

All our ships sail on DIS and we are member of the shipping association of 2010. Our turn is 1-1 and normally runs 3-4 weeks out and 3-4 weeks at home.

Send us a short application and CV as soon as possible to crewing@wm-offshore.com - write Navigator in the subject field. We process the applications continuously, and the employment takes place when we have found the right candidate.

Professional qualities

- Navigator education
- Experience from sailing with smaller ships, such as tugboats, contractor ships or crew vessels and preferably high speed craft.
- You should as a minimum hold the following valid certifications: STCW II/2 or II/3, GOC, medicine B, ECDIS, fire conductor and basic safety refresh

Personal qualities

- Good to work independently and maintain an overview of stressful situations
- Team player
- Service-minded
- Consider safety and seamanship high
- Knowledge of English and possibly German is a requirement
- Microsoft Office user level
- PC based maintenance systems (ISM)

If the above mentioned are you, World Marine offers:

- Employment in a positively developing company
- Opportunity to influence the development
- A dynamic everyday life where you can make difference
- Payment after qualifications
